

SALMAN KHAN

IT Officer & Front-End Web Developer

+92 303 0212512 | truesalman7@gmail.com | Karachi, Pakistan | [LinkedIn](#) | [View Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven IT & Web Development professional with 3+ years of experience in system support, network operations, and hardware/software troubleshooting. Proven expertise in IP telephony, CCTV, Active Directory, and IT infrastructure management. Additionally experienced as a Front-End Developer — skilled in Next.js, JavaScript, HTML/CSS, SASS/SCSS, MongoDB, and Redux Toolkit, with a track record of delivering responsive, production-ready web applications.

WORK EXPERIENCE

IT Officer

MN Textile, Karachi | 2025 – Present

- Perform hardware troubleshooting, diagnostics, and replacement of faulty components (PCs, printers, routers)
- Manage and maintain IP phone systems — configuration, troubleshooting, and user support
- Configure official email accounts on desktop/mobile (Outlook, Gmail — IMAP/POP) for all staff
- Install, configure, and maintain CCTV surveillance systems including camera placement and wiring
- Monitor LAN/WAN connectivity across departments; coordinate with ISP for outage resolution
- Manage user accounts and access rights; assist with Active Directory and user onboarding/offboarding
- Maintain IT asset inventory, device logs, issue tickets, and configuration documentation
- Provide Tier-1 & Tier-2 technical support to end-users for software, hardware, and network issues
- Install, configure, and patch operating systems (Windows 7/10/11) and essential software
- Coordinate with vendors for hardware procurement, AMC contracts, and warranty claims

Front-End Developer

Associated Venture (associatedventure.com) | Feb 2024 – Jul 2024

- Transformed Figma designs into responsive, interactive interfaces using Next.js, HTML/CSS, and SCSS/SASS
- Implemented state management using Redux Toolkit for optimized application performance
- Established MongoDB connectivity with cloud databases for effective data storage and management
- Deployed applications to Vercel with CI/CD pipelines for seamless, scalable hosting
- Used GitHub for version control — branch management, commits, and collaborative workflows
- Collaborated with design team to deliver user-friendly features and optimized user experiences

IT Specialist

Rapid Computer, Karachi | 2010 – 2017

- Managed hardware and software troubleshooting for a wide range of client systems
- Installed and configured Windows operating systems, internet routers, and peripherals
- Maintained IT documentation including device inventory, issue logs, and configuration records

PROJECTS

Restaurant Website (Full-Stack)

Online ordering, reservation, party & wedding bookings with real-time data handling.

■ [myrestaurant-chi.vercel.app](#)

Car Loan Calculator (Front-End)
